### The Technology:

#### Completely SAFE! No drugs, stimulants or sedatives – nothing enters the body!

The 'RestQuiet' patch utilizes the LifeWave 'frequency energy transference technology'. The materials in the patches consist of a patent pending blend of water, stabilized oxygen and amino acids.

*We believe the patches work by increasing Oxygen uptake in the body. It is a well known fact that elevated levels of Oxygen promote a restful night's sleep.*

The RestQuiet Patch system is the newest product of modern science applied to ancient oriental medicine that induces you into a deep rest by means of a persistent stimulation of the bodies own natural acupuncture meridians.

The sleep patches are the bomb!!

I haven't slept so well in a long time. Even the nights I thought I had been sleeping well don't touch the sleep I'm having with these new patches. Delightful!

Sleep deprivation is extremely stressful in many ways, I know from firsthand experience. I would highly recommend these patches to anyone who has trouble sleeping and I am very excited about letting people know about them.
